## BE PART OF SME'S FREE TECHNICAL COMMUNITY NETWORK

- **Get quick answers** that help you solve problems NOW.
- **Access** a broad and deep range of technical information suited to your interests... even as they change.
- **Stay current** on emerging technologies and advances across the manufacturing enterprise.
- **Share** best practices with like-minded manufacturing professionals, online and in person.
- **Advance** the collective knowledge in your specialty area of interest by leading a tech group or guiding the development of new information resources.

Indicate your selections in the "technical communities" section on the front of this form.

### AUTOMATED MANUFACTURING & ASSEMBLY

Focuses on automated processes and technologies - the integration of robotics, machine vision and sensors into complete systems that manufacture and assemble products.

### FORMING & FABRICATING

Supports key manufacturing technologies in metal forming and fabricating, such as stamping, casting, shaping, bending, forging, punching, cutting, welding, and other processes that add value to sheet metal, coil, plate, tube, or pipe stock.

### INDUSTRIAL LASER

Actively engaged to promote Laser Technology in North America with high intensity by educating the market and advancing the laser technology base across all industry sectors with cutting, welding, drilling, marking, surface treatment, and other advanced laser applications.

### MACHINING & MATERIAL REMOVAL

Focuses on machining processes, abrasive cutting processes, cutting tools and tooling, metalworking fluids, machining systems, machining of alternative materials, and much more.

### MANUFACTURING EDUCATION & RESEARCH

Concentrates on the latest education and research in manufacturing. Promotes manufacturing careers and educational opportunities that enhance the diverse workforce needs of the manufacturing enterprise.

### PLASTICS, COMPOSITES & COATINGS

Concentrates on engineered materials such as plastics, composites, ceramics, and other advanced materials; decorative finishing and coatings technologies, and metallurgy and materials science.

### PRODUCT & PROCESS DESIGN and MANAGEMENT

Helps members implement proven models to increase company productivity such as lean manufacturing, supply-chain management, Six Sigma, and other quality-assurance techniques.

### RAPID TECHNOLOGIES & ADDITIVE MANUFACTURING

Focuses on solid freeform fabrication, or layered additive rapid prototyping processes, including fused deposition modeling, stereolithography, selective laser sintering, laminated object manufacturing and 3-D printing.

## AREAS OF INTEREST

Help us meet your technical needs event better by further "customizing" your membership!

Choose up to four of the following areas of interest and place their corresponding codes in "Areas of Interest" section on the front of this application. SME will focus on providing you with technology-specific information relating specifically to these areas.
